

ONLINE SAFETY SUPPORTING SAFE & RESPONSIBLE USE

PARENTS AND CARERS GUIDE

.....

This information is for parents and carers who can help their children become safe and responsible users of digital technology.

.....

Children and young people benefit from safe and positive use of digital technology. It is used by children and young people for learning, connecting with family and friends, self-expression, play and creating.

Children and young people need support and education to become responsible users of digital technology. These benefits are supported by responsible parents and carers.

Ensure our child has support so he can
get it right. Problem will happen. Problem
can be fixed and opportunity for learning.
Talk to his child about fair consequence
